

# UK National Flap Registry (UKNFR)

## UKNFR October 2020 Update

Dependent upon your viewpoint or geographical location we are in the midst of a second wave of COVID-19. Many units have worked hard to either maintain or re-establish major reconstructive services. These units will undoubtedly find themselves under renewed pressure. UKNFR figures suggest many units have not been able to offer pre-pandemic levels of service. There were 77 and 75 flap cases recorded in September and October respectively compared to 137 in February 2020. I will keep you updated in the next report on how the resurgence in coronavirus affects activity.

### **First UKNFR report**

UKNFR First Report, funded by BAPRAS, was published on 4 December 2019 and can be accessed [here](#).

### **Reclassification of Breast Reconstruction services**

The Federation of Surgical Specialty Associations (FSSA) has updated guidance on MDT guided breast cancer surgery and immediate breast reconstruction (IBR) to 'Priority 2' (see more [here](#)).

### **COVID-related data entries have been added into UKNFR**

The UKNFR registry now includes COVID-19 swab status. The aim is to prospectively monitor if peri-operative outcomes are adversely affected by COVID-19. I would be grateful if registry users can ensure they update this section in light of any changes in COVID status of their patients.

## UKNFR Counts on 14<sup>th</sup> October 2020

Total Procedures: **7235**

Active Consultant Contributors: **219**

Hospitals Using UKNFR: **113**
