Early Diagnosis and Treatment of Cancer Series: Head and Neck Cancers

Expert Consult - Online and Print

By *Koch*

Product Type: Expert Consult

Price: £106.00

Subject Area: Medicine - Oncology

Each volume in the Early Detection and Treatment of Cancer Series is packed with practical, authoritative information designed to cover the full range of diagnostic procedures, including pathologic, radiologic, bronchoscopic, and surgical aspects. You'll be able to determine the safest, shortest, least invasive way to reach an accurate diagnosis; stage the disease; and choose the best initial treatment for early stages. Based on current evidence in the literature, authors provide clinical, hands-on tools to help you make informed decisions on precisely what

tests and imaging studies are needed to diagnose and stage each type of cancer.

Practical, authoritative, and highly-illustrated, this volume in the brand new Early Detection and Treatment of Cancer series covers current protocols and the latest advances in diagnostic imaging and molecular and serologic markers for head and neck cancers. Apply expert advice on the best “next-step” plan for different presentations and tips for less invasive protocols. Get clinical, hands-on tools to help you make informed decisions on precisely what tests and imaging studies are needed for accurate diagnosis and staging. Clear figures, tables, and boxes illustrate step-by-step care of the full range of problems encountered. Better manage your patients with procedural video clips and more on the included CD-ROM. The small size and convenient format make this an ideal purchase for diagnostic reference.
