## Head & Neck Squamous Cell Carcinoma of Unknown Primary

*Multidisciplinary Consensus Day*

### MORNING SESSIONS

| TIME           | SESSION  | PERSONNEL  |
|----------------|--|--|
| 08:00 to 08:05 | WELCOME  | President of ENTUK HN Soc:<br>Sanjai Sood                                  |
| 08:05 to 08:15 | INTRODUCTION AND SIGNPOSTING   | Vinidh Paleri  |
| 08:15 to 08:30 | Patient experience of HNSCCUP in 2020  | Liam Flood interviewed by Jo Patterson                                     |
| 08:30 to 10:10 | <b>SESSION 1:<br/>BECOMING A RADIOLOGICAL UNKNOWN PRIMARY</b>                                  | <b>Chair:</b><br>Sanjai Sood   |
|                | <i>(Investigations before diagnostic biopsies)</i>   |  |
|                | NBI in the unknown primary   | Costa Repanos  |
|                | Core vs FNAC, inc p16 and flow cytometry   | Ann Sandison   |
|                | Radiological investigations for the unknown primary  | BSHNI rep1TBC  |
|                | Retrospective (National Audit) &<br>Prospective (MOSES) imaging investigations data            | INTEGRATE representative   |
|                | Chair to introduce statements and sub-chairs for breakout rooms<br>(virtual and face-to-face)  | Sub-chairs:<br>Shane Lester, Max Robinson, Jagrit Shah                     |
|                | Consensus statements and votes   |  |
| 10:10 to 10:25 | Break  |  |
| 10:25 to 11:40 | <b>SESSION 2:<br/>BECOMING A HISTOLOGICAL UNKNOWN PRIMARY</b>                                  | <b>Chairs:</b><br>Stuart Winter and Preeta Chengot                         |
|                | <i>(Diagnostic biopsies before starting treatment)</i>   |  |
|                | Role for non-oropharyngeal biopsies in HNSCCUP   | Conor Bowe and Montey Garg<br>Supervised by Jemy Jose                      |
|                | Indications for oropharyngeal biopsies   | Noemi Kelemen and Rachel Thomas, supervised by Shane Lester                |
|                | Benefit of finding the primary site  | Tommi Tornari and Hiro Ishii<br>Supervised by Hugh Wheatley and Ketan Shah |
|                | Retrospective (National Audit) &<br>Prospective (MOSES) surgical pathway data                  | John Hardman   |
|                | Prospective (MOSES) functional, complications and LoS data                                     | Grainne Brady  |
|                | Prospective (MOSES) histological outcomes data   | Max Robinson   |
|                | FIND trial   | John de Almeida  |
|                | Interpretation of TBM results from oncologist's perspective                                    | Kevin Harrington   |
| 11:40 to 11:55 | Break  |  |
| 11:55 to 12:55 | <b>SESSION 2 cont.</b>   |  |
|                | Chairs to introduce statements and sub-chairs for breakout rooms<br>(virtual and face-to-face) | Sub-chairs:<br>Jarrod Homer, Chris Jennings, Preeta Chengot                |
|                | Consensus statements and votes   |  |
| 12:55 to 14:00 | Lunch  |  |

## Head & Neck Squamous Cell Carcinoma of Unknown Primary

*Multidisciplinary Consensus Day*

### AFTERNOON SESSIONS

| TIME           | SESSION  | PERSONNEL  |
|----------------|--|--|
| 14:00 to 15:30 | <b>SESSION 3:<br/>TREATMENT FOR THE UNKNOWN PRIMARY</b>  | <b>Chairs:</b><br>Frank Stafford and Ricard Simo                   |
|                | <i>(After final MDT diagnosis)</i>   |  |
|                | <b>3a: Neck dissections</b>  |  |
|                | Who can be offered surgery as the sole modality?   | Arun Takhar<br>Supervised by Emma King and Dev Srinivas            |
|                | Retrospective (National Audit) &<br>Prospective (MOSES) therapeutic surgery data               | INTEGRATE representative   |
|                | Does a neck dissection offer useful information to tailor (C)RT                                | TBC  |
|                | Chairs to introduce statements and sub-chairs for breakout rooms<br>(virtual and face-to-face) | Sub-chairs:<br>Emma King, Dev Srinivas, TBC                        |
|                | <b>Consensus statements and votes</b>  |  |
| 15:30 to 15:45 | Break  |  |
| 15:45 to 17:25 | <b>3b: (Chemo)radiation</b>  | <b>Chairs:</b><br>Kevin Harrington and Tom Roques                  |
|                | Radiation fields at primary site in +/-TBM scenarios   | Oncology trainee<br>Supervised by Christina Wilson and Mehmet Sen  |
|                | Radiation fields to neck for N stage/HPV status/ENE  | Oncology trainee<br>Supervised by Shahid Iqbal and Claire Paterson |
|                | Retrospective (National Audit) &<br>Prospective (MOSES) (C)RT by primary and neck stage data   | INTEGRATE representative   |
|                | Functional outcomes after bilateral neck RT  | Joanne Patterson   |
|                | Chairs to introduce statements and sub-chairs for breakout rooms<br>(virtual and face-to-face) | Sub-chairs:<br>Paul Pracy, TBC, TBC                                |
|                | <b>Consensus statements and votes</b>  |  |
| 17:25 to 18:00 | <b>SESSION 4:<br/>ESTABLISHING DELPHI ITEMS AND FUTURE RESEARCH DIRECTIONS</b>                 | <b>Chair:</b><br>Vinidh Paleri                                     |
|                | Summary of votes from 3 previous sessions  |  |
|                | Future research direction  |  |
| 18:00          | CLOSE  |  |
