

UK National Flap Registry (UKNFR)

UKNFR April 2021 Update

The recorded flap reconstructions in the first three months of this year were 77 in January, 62 in February and 103 in March. This compares to 112 recorded in January, 137 in February and 102 cases in March 2020 ahead of the first UK lockdown. This simplistic comparison would suggest that we are moving towards more normal levels of operative activity.

With the prevalence of COVID-19 in the UK decreasing and strategies to address the backlog being deployed we may hope for greater case numbers than would otherwise be expected.

First UKNFR report

UKNFR First Report, funded by BAPRAS, was published on 4 December 2019 and can be accessed [here](#).
