

# UK National Flap Registry (UKNFR)

## UKNFR February 2021 Update

Since my last update there has been a continued decline in recorded flap cases - 101 in December 2020 and 77 in January 2021. Indications of a more precipitous decline is evidenced by only 21 cases being recorded in the run up to the mid-February timepoint when this update was generated.

Naturally we expect a fall in flap numbers due to the Christmas break and 'winter pressures' stretching the provision of healthcare within the wider NHS. Our figures almost certainly indicate the resurgent medical emergency that is COVID-19 and the announcement of a third national lockdown on 4<sup>th</sup> January 2021. The ability to quantify these effects will become easier in the next report when I can begin to release summary details of year-on-year data referencing pre-COVID times.

Hopefully the successful rollout of the COVID-19 vaccination in the UK should generate confidence for patients and surgeons wishing to offer the safest environment in the peri- and post-operative period following flap surgery. Useful guidance and [advice](#) regarding COVID-19 vaccination and surgery can be found via the Royal College of Surgeons of England website.

### **First UKNFR report**

UKNFR First Report, funded by BAPRAS, was published on 4 December 2019 and can be accessed [here](#).

## UKNFR Counts on 14<sup>th</sup> February 2021

Total Procedures: **7639**

Active Consultant Contributors: **223**

Hospitals Using UKNFR: **113**
